SchoolTech Services

A very popular service, which seems to satisfy the need for a part time pair of IT skilled technical hands, is the SchoolTech Option.

This allows for a block of time to be purchased on a regular or a one off basis, in blocks of 4 hours.

During this time, a SchoolTech Technician will be at your disposal to undertake any of the SchoolTech Services outlined earlier, on your behalf.

SchoolTech Technicians

All of our technical staff are DBS (Disclosure and Barring Service) checked to ensure that they do not have any history that would raise concern about their ability to work in a school environment.

No obligation exploratory meetings and technical audits

Allow us to appraise your systems and networks and offer some constructive suggestions on their state of health. We will also highlight any immediate risks that need addressing.

This is particularly relevant in the current Cyber threat high risk scenario that we find ourselves in.

Never has a truer word been said, that prevention is better than cure – especially in the Cyber threat world.
